ALL AMERICAN POLICE CAR RACE™

JALECO

LET US BEGIN. AGAIN.

THE MOST EXCITING AND FANTASTIC RACE IN A DRIVING GAME. A REALISTIC POLICE RACE IN SAN FRANCISCO. PLAYER APPEAL THAT ENCOURAGES PLAY AFTER PLAY AFTER PLAY.

MACHINE CHARACTERISTICS

QUICK RESPONSE SEAT

Definite motion can be felt during curves and counter steers. Jumps and jolts are directly felt in the seat for a true driving experience.

VIBRATION

Vibration from the steering wheel-navigating sharp turns and during accidents.

COIN LINK

Up to four game machines can be linked together. In addition a player's car which is too far behind his opponent will automatically speed up to maintain a competitive position.

MUSICAL HORN AND SIREN SYSTEM

If the horn is pushed briefly the musical horn is activated. If the horn is held down momentarily, the siren system is activated and either computer controlled cars will yell (siren) or

TWO TYPES OF POLICE CARS CAN BE SELECTED

A powerful, large American car with quick acceleration, but reduced maneuverability or a small sports type with lots of maneuverability but lacking in quick acceleration.

CONTINUE-PLAY FEATURE

Selectable through DIP SWITCHES.
